TECHNICAL SEMINARS, AIRCRAFT STATIC DISPLAY, and TRADE SHOW EXHIBITION

AIRCRAFT STATIC DISPLAY:

Viking will be hosting an aircraft static display on ramp at the Victoria International Airport, featuring invited aircraft, fleet exhibitors, and the newest Series 400 Twin Otters to roll out the hangar doors.

TRADE SHOW EXHIBITION:

Between seminars, connect business to business with a collection of key suppliers specializing in de Havilland aircraft at the trade show exhibition.

A LOOK AT THE FORUM'S TECHNICAL SEMINARS...

Viking is pleased to bring the entire operator group together in a consolidated venue to learn of recent updates and obtain technical information pertinent to operating de Havilland and Viking aircraft. Below is an overview of the 2012 Forum seminars:

- Welcoming address and Viking update covering recent growth and current operations.
- ATLAS product support update, split into sections by aircraft type (Beaver/Otter, Twin Otter, Caribou/Buffalo and Dash 7), and Operator feedback.
- Series 400 and Guardian 400 presentation to highlight the new aircraft features and options and a 400 Series Customer Group review session.
- Twin Otter main landing gear program update and fleet survey.
- Flight Training Program presentation to provide information on current options available for operators.
- Viking Maintenance Organization presentation to provide information on maintenance and repair options for operators.
- Float Plane Safety presentation to review current standards, requirements, and safety advice.
- Repair Engineering Order presentation covering the REO process and helpful hints.
- Fleet vendor presentations including Honeywell Avionics, Pratt & Whitney Engines, custom modification operations and key suppliers.
- Product improvements and value added benefits to being a legacy de Havilland and new Series 400 operator.
